

FOR IMMEDIATE RELEASE

RF-ITV II Contract Award

Alexandria, Va., September 28, 2011 – The U.S. Army Product Manager, Joint–Automatic Identification Technology (PM J-AIT), a part of the Program Executive Office, Enterprise Information Systems (PEO EIS) at Fort Belvoir, Va., announces award of the Radio Frequency, In-Transit Visibility II (RF-ITV II) Contract to Lockheed Martin, with contract performance beginning August 11, 2011. Those interested in additional information on the RF-ITV II services offered should contact the Contracting Officer Representative, Mr. John Wloshinski via [email](#).

The RF-ITV mission to provide of the Department of Defense (DoD) supply chain started over 16 years ago with Unisys Corporation as the prime contractor supporting the RF-ITV mission for the entire period. The transition from Unisys to Lockheed Martin is unprecedented, and Jim Alexander, Deputy Product Manager, PM J-AIT, is leading the transition team. RF-ITV sites exist worldwide in support of combatant commands, making this a massive and complex effort since sites must be maintained at optimal levels of operational readiness to support joint forces.

PM J-AIT is the DoD AIT and Radio Frequency Identification (RFID) leader providing global asset tracking, web-based RF-ITV services, and complete program life cycle support. PM J-AIT products and services are customer driven and instantly accessible, with frequent updates to maintain optimization and currency. PM J-AIT serves as the procurement agent for AIT products and services for the DoD in support of expeditionary logistics and the joint services. For more information about PM J-AIT, visit www.ait.army.mil.
